

# FORD F-150 LIGHTNING SERVICE SCHEDULE

## 12 months or 16,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>

## 2 years or 32,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>
Replace the cabin air filter.	<input type="checkbox"/>

## 3 years or 48,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>
Change brake fluid.	<input type="checkbox"/>

## 4 years or 64,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>
Replace the cabin air filter.	<input type="checkbox"/>

# FORD F-150 LIGHTNING SERVICE SCHEDULE

## 5 years or 80,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>

## 6 years 96,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>
Replace the cabin air filter.	<input type="checkbox"/>
Change brake fluid.	<input type="checkbox"/>

## 7 years 112,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>

## 8 years or 128,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>
Replace the cabin air filter.	<input type="checkbox"/>

# FORD F-150 LIGHTNING SERVICE SCHEDULE

9 years or 144,000 km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>
Change brake fluid.	<input type="checkbox"/>
Change the transmission fluid.	<input type="checkbox"/>

10 years or 160,000km

Item	Check
Rotate the tyres, inspect for tyre wear, and measure the tread depth.	<input type="checkbox"/>
Perform a multi-point inspection (recommended).	<input type="checkbox"/>
Inspect the brake pads, shoes, rotors, drums, brake linings, hoses, and the parking brake.	<input type="checkbox"/>
Inspect the cooling system coolant level, coolant strength, and the cooling system hoses.	<input type="checkbox"/>
Inspect the half-shaft boots.	<input type="checkbox"/>
Inspect the steering linkage, ball joints, suspension and tie-rod ends.	<input type="checkbox"/>
Inspect the wheels and related components for abnormal noise, wear, looseness or drag.	<input type="checkbox"/>
Replace the cabin air filter.	<input type="checkbox"/>

At 322,000 km

Item	Check
Change the coolant.	<input type="checkbox"/>
