

# ATLIS XT PICKUP

## EXTERIOR HIGHLIGHTS

- Active air suspension to allow the vehicle to maneuver over the most rugged terrain yet allow for a comfortable urban ride.
- Built-in step integrated in the structure of the platform extending nearly the entire length of both sides of the truck.
- Off-board power for tools and accessories in the bed and frunk includes four 120V outlets, one 240V outlet, pneumatic hookup, two USB A ports, and two USB C ports.
- Standard spray-on bedliner for ultimate durability with four built-in tow hooks.
- Largest frunk of any electric pickup with 520L of space.
- Active headlight and taillight management including front and rear projector bulbs to provide additional lighting when needed based on use case.
- Large door handles with no moving mechanism ensure durability and enable easy ingress and egress while wearing large gloves. Digital mirror system utilizing cameras as well as retractable mirrors. One camera mounted to each side of the vehicle and two screens on the dashboard provide the driver with an unprecedented level of visibility.

## INTERIOR

- ATLIS has developed a sleek, modern design for the XT's interior using high-quality, durable, and easy to clean materials.
- Configurable to seat up to six passengers; identical seats for all passengers for maximum comfort.
- Center console includes a locking storage area at the base, three large cupholders, two wireless phone chargers and bucket storage behind the console.
- Heated and cooled seats.
- Clean, simplified dashboard with 12.8" center touch display.
- Customizable soft keys in the center display and on the steering wheel.
- 11 high resolution cameras, including a bed camera to monitor the cargo and digital mirror cameras.
- Control of all lights in the user interface, including four halo lights with controllable brightness and color customization and LED bars with customizable colors and patterns.

- Independent front and rear suspension
- Steer-by-wire with 4-wheel independent steering
- Brake-by-wire with 4-wheel independent braking
- Integrated 4-wheel independent regenerative braking
- All-wheel drive with 4 independent traction motors
- Dual Rear Wheel or Single Rear Wheel Available

## BATTERY OVERVIEW & RANGE

Life Span	1.6 million KM
Battery Size	Up to 250 KWH
Cell Shape	Cube
Chemistry	Nickel Magnesium Cobalt (NMC)
Energy Density	550+ Wh/L
Targeted EPA Estimated Range	480, 640, 800km available
Charge Time	Full charge - 15 minutes (Using ATLIS 1.5 MW charger)
Charging Ports	J1772, CCS 2.0, AMV 1.5MW

## PERFORMANCE

Targeted Power	440+kW
Targeted Peak Torque	16,200nm
Top Speed	193km/hr
0-100 km/hr	5.0 seconds

## CAPABILITIES & TOWING

Towing Capacity (GCM)	Up to 15.9t. (gooseneck or 5th wheel)
Payload (GVM)	Up to 9.0t.

## EXTERIOR DIMENSIONS

Ground Clearance (cm.)	30
Wheelbase (cm.)	365 - 440
Front Trunk (L)	520
Track Width (cm.)	177 for front and back
Wheel Travel (cm.)	25

## INTERIOR

Passengers	6 seats
Center touch display (in.)	12.8
Dash display (in.)	10.1

# AN ELECTRIC PICKUP TRUCK WITH **NO COMPROMISE**

The **ATLIS XT**

**| ALWAYS ON THE GO**  
Fully charged in **15 minutes**.
